

MUHAMMAD A. YUNAS

Physical AI & Industrial IoT GTM Leader | 18 Years at the OT/IT Convergence Frontier

yunasmuh@gmail.com | (401) 248-3664 | New York, NY | linkedin.com/in/muhammad-yunas

EXECUTIVE SUMMARY

Senior Product Marketing leader with 18 years of experience commercializing complex B2B technologies across industrial AI, IIoT, cybersecurity, and enterprise software. Known for creating GTM strategy in emerging categories, building cross-functional operating rhythm, and driving measurable revenue growth, pipeline, and market share across global portfolios. Proven track record leading teams, budgets, and category-defining launches across OT/IT convergence markets.

Expert at entering technically complex, long-cycle markets before category language exists — defining the narrative, building high-velocity GTM engines, and delivering 30–45% YoY growth with \$150M+ revenue influence across manufacturing, energy, critical infrastructure, and SaaS portfolios.

EXECUTIVE COMPETENCIES

GTM Strategy & Execution Category Creation | Positioning & Messaging | B2B Launch Strategy | SaaS & PLG Economics | ABM Revenue Acceleration

Revenue Acceleration Pipeline Generation | Sales Velocity & Enablement | Win/Loss Analysis | NRR Optimization | CAC Reduction

Physical AI & IIoT OT/IT Convergence | Predictive Operations | Connected Asset Intelligence | Edge-to-Cloud GTM | Digital Twin

Commercial Operations Budget & P&L Management | Matrix Navigation | Cross-Functional Alignment | Team Scaling

PROFESSIONAL EXPERIENCE

Senior Director of Product Marketing — Interim & Fractional Independent Consultant · New York, NY · July 2024 – Present
Retained as Physical AI and Industrial IoT GTM counsel for enterprise B2B organizations commercializing AI systems that sense, operate in, and act on the physical world.

- Architect GTM frameworks for AI platforms at the OT/IT convergence layer, spanning edge intelligence, connected asset operations, predictive maintenance, and cyber-physical security.
- Lead full-lifecycle product marketing transformations — from market positioning to enterprise pipeline execution — accelerating time-to-revenue for complex industrial AI and IIoT portfolios.
- Shape Physical AI category narratives through publications, industry panels, and executive advisory across industrial IoT, smart grid, and connected operations sectors.

Senior Director of Product Marketing UST · Aliso Viejo, CA · December 2022 – June 2024

Led product marketing for professional engineering services portfolio (team of 4 PMMs, \$2M+ annual marketing budget, North America & EMEA).

- Drove \$9M in new revenue (30% YoY growth) and the largest regional marketing pipeline in company history by repositioning capabilities as Physical Operations Intelligence, unlocking industrial and commercial buyer personas.
- Expanded customer engagement 75% and secured executive sponsorship for a \$10M untapped market opportunity, delivering 34% incremental revenue through structured cross-functional GTM execution.
- Overhauled enterprise acquisition economics — reduced CAC 15% and tripled conversion rates via redesigned buyer journeys across manufacturing, supply chain, and engineering services verticals.

VP, Product Marketing – Process & Manufacturing Uptake Technologies · Chicago, IL · December 2021 – October 2022

Led GTM for \$50M+ industrial AI platform serving heavy manufacturing, energy, and process industries across three geographies.

- Commercialized the OT/IT convergence narrative for predictive maintenance, asset performance management (APM), and operational intelligence, serving clients including Caterpillar and BHE Renewables.
- Bridged the language gap between OT buyers and enterprise IT decision-makers, unifying messaging across Sales, Customer Success, and Product — reducing sales cycle times 40% and increasing target account engagement 35%.
- Restructured marketing spend through AI-driven industrial segmentation, eliminating \$2M in annual inefficiencies while improving marketing ROI 15%.

Senior Director, Product Marketing — Cyber Recovery & Data Protection Dell Technologies · Boston, MA · July 2018 – November 2021

Owned global GTM for \$500M+ cybersecurity portfolio (led team of 6 PMMs, \$5M+ marketing budget).

- Repositioned \$500M+ portfolio as cyber-physical resilience, connecting data protection to operational uptime for asset-intensive enterprises and critical infrastructure.
- Increased competitive win rate 42% and grew market share 37% by establishing Dell as category leader across Fortune 500 and industrial accounts.
- Scaled AI-powered enterprise onboarding program to 5,000+ users annually, reducing time-to-value 25% and lifting NPS +25 points to the highest in division history.

Senior Director, Product Marketing — Partner & Channel Dell Technologies · Boston, MA · January 2016 – July 2018

Led partner GTM across North America and EMEA (team of 4 PMMs, \$3M+ budget, 200+ channel partners).

- Built and scaled global partner GTM engine, driving 45% YoY revenue growth across data protection and infrastructure portfolios.
- Generated \$24M in net-new pipeline through modular messaging frameworks and tight alignment across direct sales, product, and channel partners.
- Reduced partner sales cycles 66% with standardized competitive playbooks and established an executive Partner Advisory Council for top global accounts.

Senior Director, Product Marketing — Intelligent Physical Operations (Early IIoT) Schneider Electric · Boston, MA · January 2012 – December 2015

Led global product marketing for connected physical operations platform (team of 5, \$4M+ budget).

- Spearheaded early IIoT platform connecting physical security infrastructure to enterprise operational intelligence, scaling from launch to \$75M+ cumulative revenue in 18 months (38% market share).
- Pioneered cross-regional GTM playbooks bridging physical security, OT, and IT buyers — directly informing Schneider's broader IIoT strategy.
- Delivered 35% increase in average deal size and expanded enterprise wallet share from \$500K to \$1.2M per account through targeted ABM programs.

Director, Product Marketing — Data Center Infrastructure Management (DCIM) Schneider Electric · Boston, MA · September 2006 – December 2011

Led product marketing for DCIM software portfolio — foundational work in commercializing physical-digital intelligence (team of 4, \$3M+ budget).

- Defined and commercialized the DCIM category, establishing the GTM architecture for what is now recognized as Physical AI.
- Pioneered Schneider's SaaS GTM playbook, driving \$32M revenue growth across 12+ launches with 45% first-year adoption (adopted as corporate standard).
- Executed \$120M TAM expansion strategy, positioning Schneider as Tier-1 DCIM leader with Gartner, Forrester, and IDC.
